

# OI CLINIC DIRECTORY

*from the OIF Information Center*

**Welcome to the 2018 OI Foundation Clinic Directory!** Once a year, the Foundation requests that clinic teams across the United States and Canada who care for people living with OI update information on their staff and services. The OI Foundation recognizes that one of the difficulties that many OI community members face is finding a team of medical professionals who are familiar working with this disorder. The purpose of this directory is to provide you and your family accurate, verified, and easily accessible information in your first step of locating good multidisciplinary medical care.

In this year's effort, the OIF received updated clinic profiles from 57 clinics that all together provide care to an estimated total of 3,323 children and adults living with OI. The OI Foundation would like to express our gratitude to the clinic directors and their care teams for providing the information.

All the information included in the directory is provided by a representative of each clinic. Please note that this list is offered as a service. Being listed does not indicate that the OI Foundation endorses services and quality of care provided by these institutions. It is the responsibility of parents and adults with OI to verify whether a particular medical team meets their needs.

<u>State:</u>	<u>Hospital Name:</u>	<u>Clinic Name:</u>	<u>Clinic Director:</u>	<u>Phone Number:</u>	<u>OI Patients Seen Last Year:</u>	<u>Services:</u>
<u>AL</u>	<a href="#">University of Alabama Hospital</a> Kaul Human Genetics Building 720 20 <sup>th</sup> St. South Birmingham, AL 35294	Bone Dysplasia and Connective Tissue Disorders Clinic	Maria Descartes, MD	(205) 934- 4983	50	Children & Adults
