U.S. House Resolution Supports OI Awareness Week, Increased Research May 10, 2014

The OIF worked with Congressman C.A. "Dutch" Ruppberger to have H.RES.513 introduced in the U.S House. The resolution supports the week of May 3, 2014 as National Osteogenesis Imperfecta Week. The resolution also states the support of the U.S. House of Representatives for efforts to promote research and for efforts to increase resources for doctors, nurses and other health care professionals to treat OI.
